

LIMITED * EDITION

THE DYNAMIC CANDY APPLE

NOW PERFORMING
IN AUSTRALIA

She's bright, smooth and very attractive from any angle!

KitchenAid is proud to present on the very special occasion of their 90th anniversary an exceptional edition of the famous Artisan Stand Mixer in the tantalizing colour of Candy Apple Red.

As a tribute to earlier models, the new 4.8 litre Artisan Series Stand Mixer will feature a 90th anniversary insignia. In addition to being the product that started it all for KitchenAid, the stand mixer remains the standard for everything we created. KitchenAid has never lost sight of the brand's original guiding principle that everything carrying the KitchenAid name should make time spent in the kitchen more enjoyable."

Every KitchenAid stand mixer includes three basic accessories: a flat beater, a dough hook for kneading everything from soft dough to stiff pizza dough; and a wire whip for beating egg whites and whipping cream. By using any of more than a dozen optional attachments, the powerful motor of this kitchen workhorse can be adapted for everything from grinding grain and meat to kneading dough, slicing vegetables, rolling and cutting pasta, and even making ice cream. Optional attachments for the stand mixer include a slicer and shredder, fruit and vegetable strainer, food grinder, grain mill, flake mill, food tray, can opener, citrus juicer and sausage stuffer; a pasta roller and a ravioli maker; several pasta cutters (including fettuccine, spaghetti, angel hair and wide noodle); and an ice cream maker.
